

Treatments

Treatments listed in the United States Department of Agriculture (USDA) Japanese Harmonization Plan for shipments to a '**Category 1**' state are approved to meet California's State Exterior Quarantine 3280 for Japanese Beetle. The California Department of Food and Agriculture (CDFA) has also approved additional treatments.

1. [USDA Approved Treatments for Japanese Beetle](#) (Please see [Appendix 1](#))
2. [CDFA Approved Treatments for Japanese Beetle](#)

Origin County Free Survey States

Origin County Free Survey States or portions of states listed in the area under quarantine may have counties that are not infested with Japanese Beetle. Shipments of articles and commodities covered will be accepted from approved counties.

Please reference [Appendix 8](#) of the [USDA Domestic Japanese Beetle Harmonization Plan](#) for a list of approved counties.
